## New From Endur ID

### Improved Infant and L&D Wristbands

We have been listening to our customers' wants and needs for an infant wristband that is easy to apply to infants as well as reliable and secure. We are excited to introduce the latest addition to our growing line of secure identification products - the EFI-4-LA family wristband. Made from a soft comfortable material, the EFI-4-LA wristband provides greater ease of applying to an infant and reliability compared to its predecessor. The new band maintains the same ease of printing on Color Laser Jet printers and provides 2 adult + 1 Pediatrics + 1 Infant band.

### Our Improved Family Band Provides New Features:

- Improved ease of applying to infant wrist and ankles - No need to manipulate fingers between infant skin and band
- Features a soft Material
- Improves reliability and security to ensure infant band doesn't fall off of the infant
- Improved fit to ensure optimum fit to infant wrist and ankle - Not too tight - Not too loose
